

Johnson & Johnson: Children Don't Need the 'F*cking' COVID Vaccine Because There Are 'Unknown Repercussions Down the Road' ... Want to 'Punish' Unvaccinated Adults and Turn Them Into 'Second-Grade Citizens' for Not Complying with Mandates

SEPTEMBER 27, 2021

Brandon Schadt, Johnson & Johnson Regional Business Lead: "It's a kid, you just don't do that, you know? Not something that's so unknown in terms of repercussions down the road, you know?"

- Schadt: "Kids shouldn't get a f*cking [COVID] vaccine."
- Schadt: "It's a kid, it's a f*cking kid, you know? They shouldn't have to get a f*cking [COVID] vaccine, you know?"
- Schadt: "J&J is like stepping in the best smelling pile of sh*t you could step in."
- Justin Durrant, Johnson & Johnson Scientist: "Don't get the Johnson & Johnson [COVID vaccine], I didn't tell you though."
- Durrant: "It wouldn't make that much of a difference" if children are unvaccinated for COVID.
- Durrant: "Inconvenience [the unvaccinated] to the point where it's like, 'I might as well just f*cking do it [and take the COVID vaccine],' you know what I'm saying?"
- Durrant: "It's almost like -- you're almost like a second-grade citizen if you're not vaccinated...you can't do anything that a normal citizen can do."

•Durrant: “If you can’t work, I feel like that’s punishment enough...Only way people really act and comply is if it affects their pockets, like if you’re working for a big company and you’re going to lose your job, best believe you’ll be the first one in line [to take the COVID vaccine]...That’s what we’re doing.”

[NEW BRUNSWICK, N.J. – Sept. 27, 2021] Project Veritas released the third video of its COVID vaccine investigative series today exposing two Johnson & Johnson [J&J] officials, who argue children do not need to take the COVID vaccine in part because of the potential long-term side effects.

One of the exposed J&J employees, a scientist by the name of Justin Durrant, laughs about inconveniencing unvaccinated adults if they refuse to comply with mandates being imposed upon them:

Justin Durrant, Johnson & Johnson Scientist: *“Inconvenience [the unvaccinated] to the point where it’s like, ‘I might as well just f*cking do it [and take the COVID vaccine],’ you know what I’m saying? Like ‘I can’t go out of state,’ I can’t – ‘my grandma’s in Canada and I can’t visit her,’ you know what I’m saying? You can’t go to France unless you’re vaccinated -- you know you’ve just got to keep doing things like that where you’re almost like a second-grade citizen if you’re not vaccinated, but I know that’s awful.”*

Veritas Journalist: *“You’re almost what?”*

Durrant: *"Like a second-grade citizen, like you can't do anything that a normal citizen can do."*

Veritas Journalist: *"A second graded citizen?"*

Durrant: *"Yeah like top grade, like the ones that get it, and the ones that just like -- then you can't do sh*t."*

...

Veritas Journalist: *"So then how do we punish [the unvaccinated]?"*

Durrant: *"I mean if you can't work, I feel like that's punishment enough."*

Veritas Journalist: *"People what?"*

Durrant: *"Only way people really act and comply is if it affects their pockets, like if you're working for a big company and you're going to lose your job, best believe you'll be the first one in line [to take the COVID vaccine]."*

Veritas Journalist: *"Right, so if you're working for a big company and you're about to lose your job, you'll be the first one in line?"*

Durrant: *"Yeah."*

Veritas Journalist: *"That's so true. That's smart, that's what we need to do."*

Durrant: *"That's what we're doing."*

Durrant said he does not recommend taking his own company's vaccine. He asked the Veritas journalist to keep that information private.

“Don’t get the Johnson & Johnson [COVID vaccine], I didn’t tell you though,” he said.

Both Durrant and Brandon Schadt, J&J’s Regional Business Lead, said that applying the COVID vaccine on children would not move the needle in the battle against the pandemic.

“It wouldn’t make that much of a difference” if children are unvaccinated for COVID, Durrant said.

“It’s a kid, you just don’t do that, you know? Not something that’s so unknown in terms of repercussions down the road, you know?” Schadt said.

“It’s a kid, it’s a f*cking kid, you know? They shouldn’t have to get a f*cking [COVID] vaccine, you know?”

Schadt compared J&J’s COVID vaccine efficacy to the other pharmaceutical companies.

“J&J is like stepping in the best smelling pile of sh*t you could step in,” he said.
